

Dear CyberBionic Systematics team,

My name is Oleh Kravinskyi, and I would like to express my interest in interning as a Frontend Developer at your company.

Although I have no commercial development experience, I am already familiar with the basics of HTML, CSS, JavaScript, React, Node and Angular and am actively developing my front-end development skills. I strive to master new technologies and enjoy putting them into practice.

I was impressed by how CyberBionic Systematics combines innovative approaches and quality services to help your clients solve problems and achieve goals. I will be glad to have the opportunity to become part of your team and get acquainted with real projects and tasks.

I am ready to learn, develop and invest maximum effort to become useful to your team and achieve common goals.

Thank you for your attention to my candidacy. I would be glad to discuss how I can be useful to your company.

Sincerely,

Oleh Kravinskyi
