Oleh Kravinskyi

Front-End Developer

Summary

I am a Front-End developer, looking for a permanent job in a company that strives to make everyday life and business easier, more productive and more convenient. I have basic knowledge of HTML, CSS, JavaScript, TypeScript, React.js, Node.js and Angular.At this stage I am improving my knowledge in Angular. In the near future, I plan to expand my knowledge by studying Python. In addition, I have practical experience in applying the Agile/Scrum methodology while working in a team. I am a quick learner, responsible and ready for difficult tasks.
